

INDUSTRIAL & SPECIALIST HOSE

Clear reinforced industrial hose

Hose selection for the conveyed medium, pressure, temperature and installation requirements.

Application: Application-led selection for the specified operating conditions.

Clear reinforced PVC hose - manufacturing range

Configuration	Material	Reinforcement	id min mm	id max mm	Temperature min c (°C)	Temperature max c (°C)	standard roll length m
Clear reinforcedPVC hose	ClearPVC	Synthetic yarn	6	50	-20	60	30

Clear reinforced PVC hose - manufacturing range Dimensions and ratings apply to the named construction or exact code shown. Select pressure, temperature, medium and end fittings together for the finished assembly. This is a bore envelope; intermediate sizes, pressure ratings and food-contact suitability are not inferred.

Clear reinforced PVC range

Configuration	id min mm	id max mm	pressure envelope min bar	pressure envelope max bar	Standard roll length m
Clear reinforcedPVC hose	3	50	7	17	30

Clear reinforced PVC hose range. The 7-17 bar pressure envelope depends on the selected bore and construction. Do not assign 17 bar to every size; confirm its size-specific duty.

Clear reinforced PVC hose - manufacturing range

Parameter	Specification
Material	ClearPVC
Reinforcement	Synthetic yarn

Clear reinforced PVC hose - manufacturing range Dimensions and ratings apply to the named construction or exact code shown. Select pressure, temperature, medium and end fittings together for the finished assembly. This is a bore envelope; intermediate sizes, pressure ratings and food-contact suitability are not inferred.

Clear reinforced hose

Parameter	Specification
Family description	classifies non-toxic reinforced hose; no specific food-contact standard

Configuration selected to match the application. Specify medium,bore,length,pressure or vacuum,temperature and end connections for technical selection. No numeric engineering rating is established for an unspecified construction.

[Application & quotation checklist](#)

Medium and concentration; Inside diameter and length; Pressure or vacuum and temperature; End connections and electrical requirements

Provide the part code, size, quantity, required configuration and application. Include a drawing or photograph where available.

Ratings apply only to the specified product and configuration. Confirm fluid compatibility, temperature, pressure transients, installation and complete assembly suitability. Ordering references do not establish interchangeability.
