

INDUSTRIAL & SPECIALIST HOSE

Mining air and water hose

Hose selection for the conveyed medium, pressure, temperature and installation requirements.

Application: Application-led selection for the specified operating conditions.

Mining air water hose

Parameter	Specification
Reinforcement	Synthetic yarn cords
Temperature range c	-20 / 60
Bore range mm	10 / 50
Standard roll length m	30
Claimed standard	SANS1086/2007; verify supplied hose test/certificate and colour construction
Green orange properties	says fire-retardant/self-extinguishing; this does not establish automatic fire-suppression compatibility

Values apply only to the named construction. Dimensions and ratings apply to the named construction or exact code shown. Select pressure,temperature,medium and end fittings together for the finished assembly.

Mining air water hose

Parameter	Specification
Family description	Air/water service family

Configuration selected to match the application. Specify medium,bore,length,pressure or vacuum,temperature and end connections for technical selection. No numeric engineering rating is established for an unspecified construction.

Application & quotation checklist

Medium and concentration; Inside diameter and length; Pressure or vacuum and temperature; End connections and electrical requirements

Provide the part code, size, quantity, required configuration and application. Include a drawing or photograph where available.

Ratings apply only to the specified product and configuration. Confirm fluid compatibility, temperature, pressure transients, installation and complete assembly suitability. Ordering references do not establish interchangeability.
