VALVES, MANIFOLDS & CONTROLS

DFL - FLOW DIVIDER

Hydraulic control components selected to the circuit function, flow and pressure.

Ordering references: DFL-06 / DFL-08 / DFL-12 / DFL-16

DFL FLOW DIVIDER exact configuration

Part code	Fixed split ratio	Nominal connection size; thread system unspecified	listed flow (L/min)
DFL-06	50:50	3/8	24.0
DFL-08	50:50	1/2	40.0
DFL-12	50:50	3/4	90.0
DFL-16	50:50	1	150.0

Select the exact part code and configuration shown. Connection dimensions, material, seals and operating conditions must suit the complete assembly. Unlisted ratings and dimensions require confirmation during quotation.

Application & quotation checklist

Circuit function and number of sections; Flow, pressure and port sizes; Control method and supply voltage if applicable; Circuit diagram and load-holding requirements

Provide the part code, size, quantity, required configuration and application. Include a drawing or photograph where available.

Ratings apply only to the specified product and configuration. Confirm fluid compatibility, temperature, pressure transients, installation and complete assembly suitability. Ordering references do not establish interchangeability.
