

VALVES, MANIFOLDS & CONTROLS

FT3 - NG6 MANIFOLD BLOCKS

Hydraulic control components selected to the circuit function, flow and pressure.

Ordering references: MRSK3-06 / MRSK3-08VMP / NG6-2MAN / NG6-3MAN / NG6-4MAN

FT3 NG6 MANIFOLD BLOCKS exact configuration

Part code	Nominal size reference	Part type	Station count
NG6-4MAN	NG6	manifold	4

Manifold station-count and subplate choices for the indicated nominal interface size. Confirm the valve mounting pattern, port threads, pressure rating, material and full block dimensions. Nominal NG size and station count alone do not prove fit or capacity.

Application & quotation checklist

Circuit function and number of sections; Flow, pressure and port sizes; Control method and supply voltage if applicable; Circuit diagram and load-holding requirements

Provide the part code, size, quantity, required configuration and application. Include a drawing or photograph where available.

Ratings apply only to the specified product and configuration. Confirm fluid compatibility, temperature, pressure transients, installation and complete assembly suitability. Ordering references do not establish interchangeability.
